

Axon cable, Guillouart - Montmirail (51)

Year:

2000

Program:

The present project deals with the rehabilitation of a building with industrial use on the Z.I. of Montdant. The existing construction is dressed in a metallic outside bardage, surmounting a base in masonry.

Project management:

Axon'Cable

Project manager:

Goudchaux Architecte & Associés
Thomas Fourtané Architecte

Mission:

Mission de base

Area:

2500 m²

Cost:

860000 €

The project consists on the cration of a new floor on the whole building, it also consists on the drillings modification, on the creation of emergency exits, and finally on the modification of the «delivery» and «shipping» areas.

The chosen materials are in agreement with an « industrial » architecture, discreet and worried about the respect of the surrounding nature.

The accesses will be intended to welcome parking places, with turfed and standings surface.
