Axo'com - Montmirail (51)

Year:
2000

Program:
The present project deals with the heavy rehabilitation of an indusrtielle hall intended to receive an activity of high-technology cabling. The discount for level of the closed and the place setting comes along with a basic service, allowing a multi-purpose use by the industrialist tenant of places.

Project managment:
Axon'Cable
Communauté de Communes de la Brie Champenoise

Project manager:
Goudchaux Architecte & Associés
Thomas Fourtané Architecte

Mission:
Mission de base - OPC

Area:
2600 m²

Cost:
550000 €

The project consists on the cration of a new floor on the whole building, it also consists on the drillings modification, on the creation of emergency exits, and finally on the modification of the □□delivery □□ and □□shipping□□ areas.
The chosen materials are in agreement with an « industrial » architecture, discreet and worried about the respect of the surrounding nature.

The accesses will be intended to welcome parking places, with turfed and standings surface.
