

Axo'com - Montmirail (51)

Year:

2000

Program:

The present project deals with the heavy rehabilitation of an industrial hall intended to receive an activity of high-technology cabling. The discount for level of the closed and the place setting comes along with a basic service, allowing a multi-purpose use by the industrialist tenant of places.

Project management:

Axon'Cable
Communauté de Communes de la Brie
Champenoise

Project manager:

Goudchaux Architecte & Associés
Thomas Fourtané Architecte

Mission:

Mission de base - OPC

Area:

2600 m²

Cost:

550000 €

The project consists on the creation of a new floor on the whole building, it also consists on the drillings modification, on the creation of emergency exits, and finally on the modification of the «delivery» and «shipping» areas.

The chosen materials are in agreement with an « industrial » architecture, discreet and worried about the respect of the surrounding nature.

The accesses will be intended to welcome parking places, with turfed and standings surface.
