

## Axon cable, Guillouart - Montmirail (51)

**Year:**  
2000

**Program:**  
The present project deals with the rehabilitation of a building with industrial use on the Z.I. of Montdant. The existing construction is dressed in a metallic outside bardage, surmounting a base in masonry.

**Project management:**  
Axon'Cable

**Project manager:**  
Goudchaux Architecte & Associés  
Thomas Fourtané Architecte

**Mission:**  
Mission de base

**Area:**  
2500 m<sup>2</sup>

**Cost:**  
860000 €

The project consists on the cration of a new floor on the whole building, it also consists on the drillings modification, on the creation of emergency exits, and finally on the modification of the «delivery» and «shipping» areas.

The chosen materials are in agreement with an « industrial » architecture, discreet and worried about the respect of the surrounding nature.

The accesses will be intended to welcome parking places, with turfed and standings surface.
